

CFD SHOE GUIDE

A QUICK GUIDE ON WHAT TO LOOK FOR

TIGHTS

Bloch tights have a thicker material that will last you all year. While they're a bit more expensive the thinner tights will rip easily and you'll be buying multiple throughout the year

COLOR SYSTEM

Tap Shoes

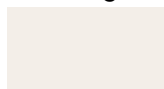

Jazz Shoes

Ballet Shoes

Ballet tights

Jazz tights

TAP SHOES

Check the bottom of the tap shoe! You'll want to purchase a shoe that has screws instead of nails. Screws will last much longer and nailed taps will fall apart.

AGES 3-5

Tap shoes with a simple velcro strap allow our preschool age to change shoes themselves. Ballet Shoes without ties keep our teachers from re-tying shoes 10,000x in class

JAZZ SHOES

Jazz shoes should be tan. You have many options for fit here. We recommend the Pulse because it allows for more flexibility in the foot.

BALLET SHOES

Canvas ballet shoes mold to the foot better and is more flexible for ballet movements.
